EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Randi B. Isaacs on January 25, 2005.

The application has been amended as follows:

In claim 1, at line 6: after the word "pattern", insert the phrase – and through the ceramic substrate --;

and at line 8: delete the word "corners" and insert thereby the phrase – wherein the periphery edges of both ends of each --.

In claim 6, at line 2: delete the word "corners" and insert thereby -- edges --.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Edgerton (US 2,713,110) discloses a ceramic heater having through-holes provided for bolts to hold the heating element.

The following is an examiner's statement of reasons for allowance: allowance of claims 1 and 5-9 is indicated because the prior art of record does not show or fairly suggest the periphery edges of both ends of each of the through-holes disposed between the heat generation pattern are chamfered or tapped.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-fri from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on (571) 272-4777. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
